1. Profile of Letsbuildnamibia.com

1.1 Basic idea

Due the current "Building Boom" in Namibia a need has arisen for an information portal for all aspects of the building industry in Namibia. An information service of this kind to date has not been provided in Namibia.

1.2 Content

Letsbuildnamibia.com consists of two components:

Internet Information Portal – An information service regarding the building industry in general in Namibia. The news page may be used for anything from advertising to employment positions which may be available directing users to the Classified Directory.

Classified Directory – A detailed list, regarding the building industry, of all branches and service providers available in Namibia. This part of letsbuildnamibia.com offers the client an overview and variety of services available in Namibia.

1.3 Philosophy

An Information Service for all branches of the building industry in Namibia and, for the client, an easy, detailed and fair overview of all products and services offered within the building industry in Namibia. The owner of letsbuildnamibia.com has years of experience in building.

The success of any project depends on the strength of its professional team.

Let`s build Namibia. Your Expectations - Our Qualifications

2. Internet Information Portal

2.1 Structure and design of portal
